Kinship Center's ACT

Kinship Center's Education Institute is a leader in adoption-related educational products and training. The Institute's **ACT** is recognized as a model for the industry. In a recent **ACT** survey, 91% of former participants responding say they are better able to prepare families to expect and handle crisis points in the adoptive life cycle.

The core curriculum for Kinship Center's **ACT** was developed in 1992 and has been refined and field-tested to more than 6,000 professionals over 15 years. Today's 48-hour curriculum addresses the experiences of all members of the adoption and permanency constellation and is presented interactively through lecture, video, and large/small group activities. Kinship Center's **ACT** training team comprises highly skilled adoption professionals experienced in public and private agencies, private practice and mental health clinics.

The target audience for **ACT** is social workers, therapists, advocates, adoption professionals, attorneys, judges, *CASA*'s and educators.

Upcoming Class Schedule

The next 2011 ACT class will be held at 18302 Irvine Blvd. Ste. 300, Tustin, from 9:00-4:00 on the following dates. Days are Mondays and Tuesdays. Registration ends 9/09/2011.

9/19-9/20 · 10/17-10/18 · 11/7-11/8 · 12/5-12/6

No single sessions are available.
No participant substitutions allowed.

Upon completion of the eight-session course, participants may receive 48 CEU'S, recognized by BBS Provider #PCE 818, and/or a Certificate of Completion.

Permanency Competence - Essential Outcomes for Professionals

As a result of completing ACT, participants in their pre-and post permanency work will:

- Incorporate the model of the Seven Core Issues into the assessment, education and treatment of families
- Appreciate the tasks that relative caregivers must address as family roles are changed
- Learn to enhance family strengths and empower the family as agents of change
- Embrace the interrelated core principles of attachment and neurobiology; include the impact of trauma in assessment and in the development of clinical interventions
- Understand the additional developmental challenges that adoption and permanence place on the child
- Be able to assist parents to learn healthy attachment-based parenting skills
- Acquire the skills and tools for working with the whole family system to maintain the child in a family setting
- Recognize the complex issues that arise for today's diverse family structures, including single parent families, relative adopters, domestic and internationally built families, trans-racial/trans-cultural, and families with different types of openness and permanency arrangements
- Respect the long term roles and needs of the birth family
- Competently address issues of search and reunion
- Understand the significant influence of the child's genetic history, race and culture
- Value sibling relationships and their life-long importance
- Be able to link interventions and community resources to the family
